

SPECIFICATION

In the June 28, 2007 Response to Office Action, a new paragraph was added after paragraph 26, mentioning a “top layer 80”.

Now, after that new paragraph, kindly add two more new paragraphs as follows:

The top layer 80 in Fig. 5 can also be termed a “cover layer”. Layer 51 may be termed a “first layer” and can correspond to the first or “top copper layer” of Figs. 1-4. Layer 52 may be termed a “second layer” and can correspond to the second or “internal copper layer” of Figs. 1-4. Layer 53 or 54 may be termed a “third layer”.

Returning to Figs. 1 and 3, it will be appreciated that the number of rows can be eleven or more, and the number of columns can be thirteen or more.
